Good morning it's been awhile since I emailed you back about meeting to get the right permit to fill this hole on our commercial property and I've have not heard back from you? You guys stopped us in the middle of working on the project and said do not do touch anything else until we get everything figured out and that's what I did. That area is a huge mess and visually looks terrible We need to get this figured out so we can continue as soon as possible.

Thank You
