Hi all,

I am adding Eric (my supervisor) to this email thread.

Thanks,
Isabelle

Subject: Re: letter to Bruce Slaton

Hi all,

As mentioned during the call:

The definition of processing as it pertains to Construction and Demolition and Inert Debris Transfer/Processing Regulatory Requirements is in 14 CCR 17381 [1], subsection (v):

(v) “Processing” means controlled separation, recovery, volume reduction, or recycling of solid waste including, but not limited to, organized, manual, automated, or mechanical sorting; chipping, grinding, shredding or baling; the use of vehicles for spreading of waste for the purpose of recovery; and the use of conveyor belts, sorting lines or volume reduction equipment.

Crushing would fall under volume reduction.
